GLACIER DRESSING

PRODUCT DESCRIPTION

Glacier Dressing is a thick, water based, high gloss, non-greasy dressing that leaves behind a deep, rich shine and fresh sweet pea scent on rubber, plastic, and vinyl surfaces.

FEATURES

- White liquid with sweet pea scent
- Ready-to-use or 1:1 concentrate
- Satin / high gloss
- Contains silicone
- Non-greasy

BENEFITS

- Glacier Dressing effectively shines and protects rubber, plastic, and vinyl surfaces.
- Glacier Dressing can also be used to dress engines.
- Water-based formulation contains no harsh solvents.
- The thick formula of Glacier Dressing stays where applied, minimizing streaking.
- High gloss provides a deep, rich shine.
