D'-BIOZYME

PRODUCT DESCRIPTION

PetraShield™ D'-Biozyme is a synergistic blend of bacterial enzymes which breakdown grease and oils. Cleans stains and odors from carpet and upholstery caused by urine, feces, blood, wine, coffee, vomit, and more. Eliminates odors naturally. Highly concentrated - contains 400 billion organisms per gallon, ensuring a safe and natural cleaning process.

FEATURES

- Eliminates stains & odors
- Multiple uses
- Highly concentrated
- Non-pathogenic
- Color safe on fragile fabrics
- Safe to use full strength

BENEFITS

- **Effective Stain Removal:** Enzymatic cleaners are highly effective at breaking down and removing tough organic stains and odors.
- **Natural and Safe:** They use natural process to clean, making them safe for use around children and pets.
- **Versatile:** Suitable for a wide range of surfaces and stains, including carpets, upholstery and textiles.
- **Eco-Friendly:** Enzymatic cleaners are readily biodegradable and environmentally friendly, reducing the impact on the environment.
- **Color Safe:** The formula is safe on colors and even on fragile fabrics such as wool, ensuring that you can confidently use it on a variety of surfaces without worrying about color fading or fabric damage.
