## PETRACERAMICGLASS+® DETAILER

### PRODUCT DESCRIPTION

PetraCeramicGlass+® Detailer by PetraShield™ is a specialized surface preparation solution designed to ensure maximum bonding and performance of ceramic coatings. Engineered to deep clean, decontaminate, and prime vehicle surfaces, it removes polishing oils, residues, and microscopic impurities, creating the perfect foundation for long-lasting ceramic protection.

### FEATURES

- Advanced cleaning formula that eliminates residues, oils, and light contaminants
- Safe for use on paint, glass, wheels, and exterior surfaces
- Fast-drying, streak-free finish
- Optimized to enhance ceramic coating adhesion
- Easy spray-and-wipe application

### BENEFITS

- Maximizes durability and longevity of ceramic coatings
- Improves coating bond for superior gloss and protection
- Reduces risk of coating failure, streaking, or uneven coverage
- Saves time with quick, simple application
- Delivers a professional-grade foundation for flawless results
