

# PetraBLADES REAR

## PREMIUM REAR WIPER BLADES

### Rear Blades Technical Data Sheet

#### Product Description:

PetraBlades Rear Wiper Blades are engineered to the same high standards as our front beam blades, delivering durability, smooth wiping performance, and clear visibility where drivers need it most. Made with premium rubbers and advanced construction, these rear blades are designed to withstand extreme weather while maintaining a sleek, OE-style appearance.

#### Available Sizes:

- 11"
- 12"
- 14"
- 16"

#### Claims

- Premium-grade rear wiper blade for all-weather performance
- Durable rubber compound for a quiet, streak-free wipe
- OE-style design ensures proper fit and appearance
- Engineered for maximum contact on curved rear glass
- Easy-to-install with vehicle-specific connectors

#### Advantages & Uses

- Improves rear visibility and overall driving safety
- Maintains performance in rain, snow, heat, and cold
- Perfect fit for modern vehicles with rear wiper systems
- Quick and secure installation with no special tools
- Reliable choice for passenger cars, SUVs, and crossovers

#### Features

- Premium Rubber Compound: Delivers clean, quiet performance with extended life
- Compact Aero Profile: Reduces drag and ensures snug windshield contact
- OE-Style Arm Compatibility: Matches factory look and fit
- Durable Construction: Resists cracking, splitting, and UV damage
- Easy Connector System: Designed for fast, tool-free replacement
