TRIPLE PROTECT X

PRODUCT DESCRIPTION

PetraShield™ Triple Protect X is a highly effective, water-based alternative to a traditionally solvent-borne dominated product offering. This non-scented, quick-to-apply fabric repellent will effectively hydrophobe most fabrics and textiles without damaging unintended surfaces, such as plastics.

FEATURES

- No smell
- Won't damage unintended surfaces
- Relatively durable

BENEFITS

- **Effective Fabric Protection:** Hydrophobes most fabrics and textiles, providing a durable protective layer.
- **Safe for Various Surfaces:** Won't damage unintended surfaces such as plastics.
- **User-Friendly:** Easy to apply with no unpleasant smell.
- **Color Safe:** The formula is safe on colors and fragile fabrics, ensuring that you can confidently use it on a variety of surfaces without worry.
